Product Advantage

STAINLESS STEEL COUNTERTOP

- 1、Food grade 304 stainless steel, no bacteria breeding, touch the food directly;
- 2、Double-sided antibacterial stainless steel, completely isolated the moisture in the air, really 100% waterproof
- 3、Never bleed, never change color, never crack, commonly used new, lasting as new
- 4、The inner pad is thickened with aluminum honeycomb panels. Super load bearing, shockproof, silent, not broken, not aging

The countertop and sink are integrated
no welding spot and seamless

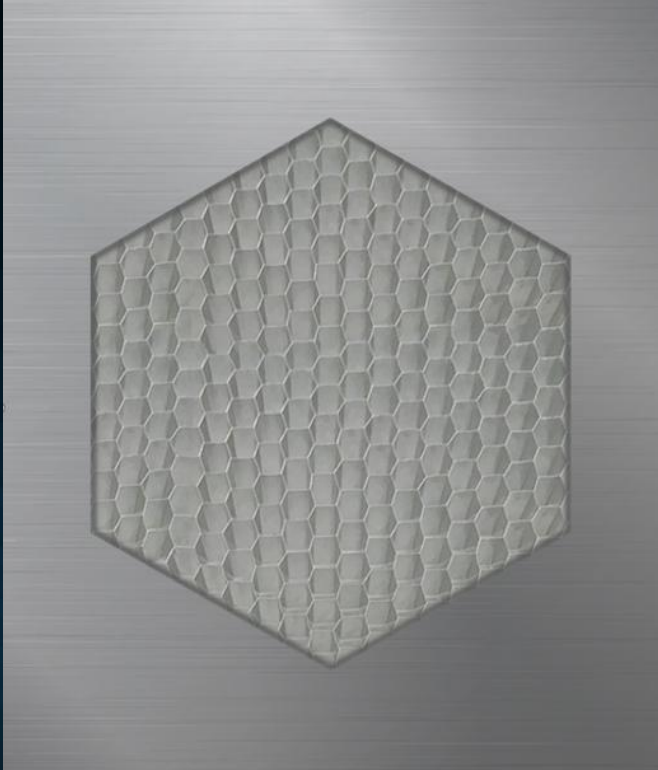

One-piece bending molding,
there is no gap between the
sink and the back splash,
there will be no leakage, water
seepage, dirt accumulation,
difficult to clean, and even
blackening, etc., to prevent
hidden dangers of breeding
bacteria, while at the same
time beautiful and high-end, to
provide consumers with a real
Use comfortable and clean
worktops

Stainless steel carcass

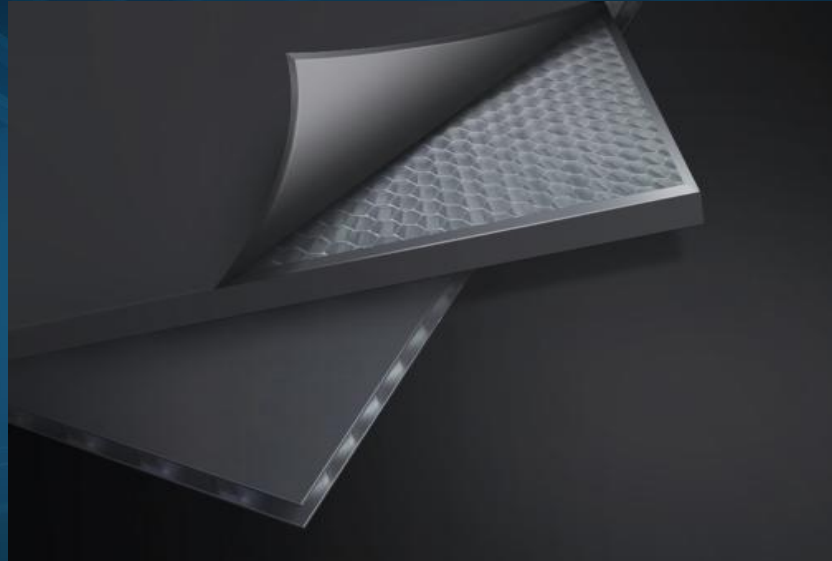

1. All metal structure, absolute strong
2. No wood and no pollution
3. Easy installation of mortise and socket structure
4. 100% water-proof and moistureproof
5. Laser cutting and welding, more precise size

Aluminum honeycomb structure is one of the achievements of bionics research. It is modeled on the honeycomb hexagon in nature. This shape can disperse the external force well and support each other, so that it can achieve good resistance to deformation and external force. The effect is known as the most effective and reasonable perfect mechanical structure in nature, and it has the functions of sound insulation and constant temperature.

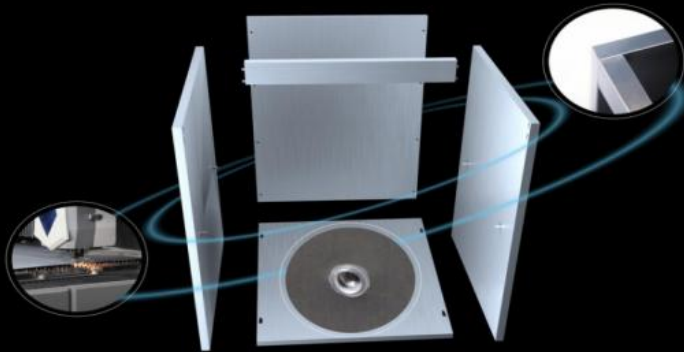

【Tenon craft】

- Innovative design of the traditional craftsmanship of carpentry, innovative design into the structure of the horse-drawn pin, the cabinet plate is assembled and fixed by the horse-drawn pin, no screws are needed, the surface is smooth and beautiful, no screw holes will not hide dirt; The cabinet structure assembled by the pin structure is 3-5 times more stable than the conventional screw fixing, and the installation time is nearly doubled;

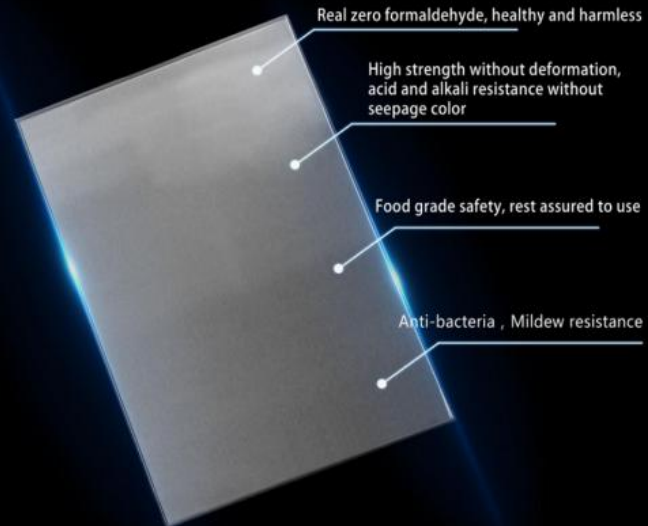

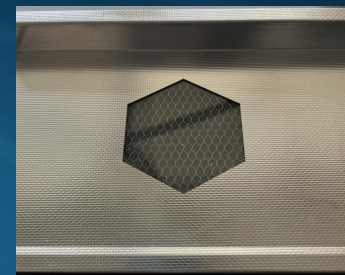

Zero error installation

Laser drilling for hinge position of cabinet,
embedded nut, precise positioning

The Built-in Series

The Hns® Built-in Grill has been specially designed to accommodate all types of multi-family and commercial applications. Whether it is an apartment community, hotel, or country club, these environments get a great deal of extra use. This grill is the perfect option for any commercial application.

HNS-B4-R BUILT-IN FEATURES

COOKING AREA	723*460mm
PRODUCT SIZE	870*627*533mm
PACKAGE SIZE	860*650*590mm
GROSS WEIGHT	68kg
PERFORMANCE	66000BTU/19.3kW
BURNERS	3.7kW main burners, 4.5kW rear burner
MOTOR OUTPUT	4W(220-240V, AC50Hz), 2.5or3r/min
LOADING QUANTITY	81pcs/20GP 162pcs/40GP 216pcs/40HQ

D-2 BBQ

MULTIFUNCTION GRILL

CONTROL PANEL LIGHTS
