CE Certification

Market Position Claim

Baineng

Stainless steel kitchen cabinet volume sales ranked No.1 in China for three consecutive years

Source: Euromonitor International (Shanghai) Co., Ltd.,
measured in terms of brands' volume sales (in sets) of stainless
steel kitchen cabinets across all channels in mainland China from
2023 to 2025. Stainless steel kitchen cabinets refer to kitchen cabi-
nets made entirely of stainless steel, or primarily constructed with
stainless steel as the main structural material combined with other
materials as components; research completed in March 2026.

 Euromonitor
International 

Stainless steel kitchen
cabinet-top 1 sales in
China Certification

SGS Strength manufacturer certification
Baineng kitchen cabinets are highly
recognized by the industry and abroad,
and have a good reputation. Baineng's
consumer mindset in the market =
stainless steel cabinets.

PRODUCT ADVANTAGE

Advantage for Stainless steel modular kitchens

- Design is modular and can be produced in a variety of colours according to client needs
- Equipment surfaces are easy to clean
- Long lasting materials
- Internal corners have been removed by design so that cleaning is easy
- Fittings on the sample were high quality
- Modern appearance that can be customized for affect
- Equipment is termite proof
- Equipment is strong and not easily damaged by impact
- Materials do not easily corrode and can be used externally if needed
- Sink units are joined to the benchtop preventing leaks
- Strength allows flexibility in design
- No holes in pantry cupboard for moths to get into
- waterproof, fireproof, insect-proof, high temperature resistance, corrosion resistance, aging resistance, bending resistance, compression resistance and impact resistance

STAINLESS STEEL COUNTERTOP

- 1、 Food grade 304 stainless steel, no bacteria breeding, touch the food directly;
- 2、 Double-sided antibacterial stainless steel, completely isolated the moisture in the air, really 100% waterproof
- 3、 Never bleed, never change color, never crack, commonly used new, lasting as new
- 4、 The inner pad is thickened with aluminum honeycomb panels. Super load bearing, shockproof, silent, not broken, not aging

The countertop and sink are integrated
no welding spot and seamless

The countertop and water basin are welded by German four-dimensional laser, and are hand-polished by senior technicians. They feel smooth and do not scratch hands. The stainless steel countertop is bent in one piece, which is different from the stone countertop that needs to be glued. It can be 100% watertight, does not breed bacteria, and is more environmentally friendly and easier to clean.

Stainless steel cabinet

1. All metal structure, absolute strong
2. No wood and no pollution
3. Easy installation of mortise and socket structure
4. 100% water-proof and moistureproof
5. Laser cutting and welding, more precise size
